ONE Medicine for humans and animals

## Humanimal Trust One Medicine Day Seminar

Friday 6th May 2022

2.00pm – 5.15 pm – British Summer Time

### 'One Medicine in Action – Awareness, Collaboration and Change'

#### Seminar Programme

Please note that all times given throughout are in British Summer Time and that this programme may be subject to change.

Time	Programme
2pm – 2.15pm	<b>Welcome Address</b> Professor Roberto La Ragione - Chair of Trustees, Humanimal Trust.
2.15pm – 2.30pm	<b>Introduction</b> Dr Tracey King - Research and Outreach Manager, Humanimal Trust.
2.30pm – 3pm	<b>The Art of Science Communication</b> Dr Deborah Thomson - Founder and President, One Health Lessons, USA.  An outline of the skills that can be used to convey scientific and medical jargon to children, the public and policymakers. Several memorable true stories will be shared to illustrate how strong communication skills can influence the most unlikely audiences.
3pm – 3.30pm	<b>Never work with Children or Animals</b> Miss Anna Radford - Consultant, Paediatric Surgery, Department of Paediatric Surgery, Hull Royal Infirmary, Hull, UK; Hull York Medical School, University of York, York, UK; Leeds Children's Hospital NHS Trust, Leeds, UK  An overview of Anna's research in paediatric urology and how this has led to collaborations using a One Medicine and One Health approach. Her talk will also identify some reasons why both concepts are such a bitter pill to swallow within the current human medical system.
3.30pm – 3.40pm	<b>Break</b>

3.40pm – 4.10pm	<p><b>One Agriculture – Opportunity Through Collaboration in the Agri-food Sector</b></p> <p>Dr Simon Doherty - Senior Lecturer (Education), Institute of Global Food Security, Queen’s University Belfast, Northern Ireland, UK</p> <p>In his presentation, Simon will frame the ‘One Medicine’/‘One Health’ approach in the context of the agri-food sector and sustainable animal agriculture, highlighting where opportunities exist to benefit people, animals and the environment. Using examples from both land and sea, he will introduce the work of a number of organisations working closely together to improve the sustainability of dairy, meat and fish production to feed a growing global population.</p>
4.10pm – 4.40pm	<p><b>Joined up approaches at the British Society for Immunology</b></p> <p>Dr Doug Brown - Chief Executive, British Society for Immunology, London, UK</p> <p>Doug will present the broad focus of joined up approaches in human and animal health research across the BSI’s membership with a particular focus on veterinary immunology and thoughts on future directions.</p>
4:40pm – 4:50pm	<p><b>Break</b></p>
4.50pm – 5.15pm	<p><b>Speaker Panel Q&amp;A</b>  Chair: Dr Ben Marshall, Trustee, Humanimal Trust.</p> <p><b>Panel:</b> Dr Deborah Thomson, Miss Anna Radford, Dr Simon Doherty, Dr Doug Brown.</p> <p>An opportunity for delegates to put questions to our speakers on their talks. This panel will be chaired by Dr Ben Marshall, Trustee, Humanimal Trust who will also provide the closing remarks to this seminar.</p>
